

SSC CGL 2024 TIER-1

(Number Classification)

1. In the following number-pairs, the second number is obtained by applying certain mathematical operations to the first number. In three of the four pairs, the same pattern is applied and hence they form a group. Select the number-pair that DOES NOT belong to this group. (NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into their constituent digits. E.g. 13 – Operations on 13 such as adding/subtracting/multiplying to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(09/09/2024 SHIFT-1)

- A. 317 - 101
- B. 358 - 152
- C. 335 - 119
- D. 308 - 92

2. The same operation(s) are followed in all the given number pairs except one. Find that odd number pair. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(09/09/2024 SHIFT-2)

- A. 12 : 39
- B. 11 : 35
- C. 13 : 42
- D. 15 : 48

3. Three of the following numbers are alike in a certain way and one is different. Pick the odd one out. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(09/09/2024 SHIFT-3)

- A. 66 – 154
- B. 72 – 168
- C. 33 – 72
- D. 36 – 84

4. Three of the following four options are alike in a certain way and thus form a group. Which is the option

that does NOT belong to that group? (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(10/09/2024 SHIFT-1)

- A. 2 – 4 – 8
- B. 3 – 2 – 5
- C. 1 – 3 – 3
- D. 2 – 2 – 4

5. Three of the following number-pairs are alike in some manner and hence form a group. Which number-pair does not belong to that group? (NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding/subtracting/multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(10/09/2024 SHIFT-2)

- A. 22 – 462
- B. 21 – 420
- C. 18 – 306
- D. 15 – 240

6. Three of the following four options are alike in a certain way and thus form a group. Which is the one that does NOT belong to that group? (NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding/subtracting/multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(10/09/2024 SHIFT-3)

- A. 52 – 68 – 51
- B. 21 – 38 – 31
- C. 81 – 118 – 91
- D. 99 – 104 – 71

7. The same operation(s) are followed in all the given number pairs except one. Find that odd number pair. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its

SSC CGL 2024 TIER-1

(Number Classification)

constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(11/09/2024 SHIFT-1)

- A. 128 : 16
- B. 151 : 19
- C. 135 : 17
- D. 103 : 13

8. Three of the following numbers are alike in a certain way and one is different. Pick the odd one out. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(11/09/2024 SHIFT-2)

- A. 90 – 144
- B. 75 – 120
- C. 45 – 70
- D. 65 – 104

9. The same operation(s) are followed in all the given number pairs except one. Find that odd number pair. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(11/09/2024 SHIFT-3)

- A. 56 : 9
- B. 72 : 12
- C. 68 : 11
- D. 44 : 7

10. Three of the following four options are alike in a certain way and thus form a group. Which is the one that does NOT belong to that group? (NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding/subtracting/multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then

performing mathematical operations on 1 and 3 is not allowed.)

(12/09/2024 SHIFT-1)

- A. 72 – 284 – 266
- B. 90 – 22 – 12
- C. 81 – 101 – 92
- D. 540 – 188 – 128

11. Three of the following numbers are alike in a certain way and one is different. Pick the odd one out. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(12/09/2024 SHIFT-2)

- A. 23 – 8 – 343
- B. 19 – 11 – 330
- C. 12 – 7 – 209
- D. 15 – 9 – 264

12. Three of the following number-pairs are alike in some manner and hence form a group. Which number-pair does not belong to that group? (NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding/subtracting/multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(12/09/2024 SHIFT-3)

- A. 14 – 121
- B. 18 – 256
- C. 11 – 81
- D. 21 – 361

13. Three of the following numbers are alike in a certain way and one is different. Pick the odd one out. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(13/09/2024 SHIFT-1)

- A. 13 – 8 – 109
- B. 21 – 4 – 89

SSC CGL 2024 TIER-1

(Number Classification)

- C. $31 - 5 - 160$
D. $27 - 9 - 243$

14. Three of the following four number-pairs are alike in a certain way and thus form a group. Which number-pair does NOT belong to that group? (NOTE: The relation should be found without breaking down the numbers into its constituent digits)

(13/09/2024 SHIFT-2)

- A. 61,71
B. 83, 97
C. 31, 41
D. 73, 79

15. Three of the following four options are alike in a certain way and thus form a group. Which is the one that does NOT belong to that group? (NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding/subtracting/multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(13/09/2024 SHIFT-3)

- A. $63 - 6 - 3$
B. $164 - 10 - 4$
C. $82 - 8 - 2$
D. $360 - 12 - 6$

16. Three of the following four options are alike in a certain way and thus form a group. Which is the one that does NOT belong to that group? (NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding/subtracting/multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(17/09/2024 SHIFT-1)

- A. $22 - 67 - 22$
B. $16 - 45 - 21$
C. $20 - 15 - 51$
D. $26 - 95 - 21$

17. The same operation(s) are followed in all the given number pairs except one. Find that odd number pair. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its

constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(17/09/2024 SHIFT-2)

- A. 45 : 54
B. 35 : 42
C. 55 : 66
D. 40 : 52

18. Three of the following four options are alike in a certain way and thus form a group. Which is the one that does NOT belong to that group? (NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding/subtracting/multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(17/09/2024 SHIFT-3)

- A. $52 - 36 - 56$
B. $86 - 41 - 38$
C. $118 - 93 - 161$
D. $33 - 15 - 12$

19. Three of the following numbers are alike in a certain way and one is different. Pick the odd one out. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(18/09/2024 SHIFT-1)

- A. $16 - 9 - 139$
B. $25 - 7 - 175$
C. $12 - 7 - 79$
D. $17 - 5 - 80$

20. Three of the following numbers are alike in a certain way and one is different. Pick the odd one out. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then

SSC CGL 2024 TIER-1

(Number Classification)

performing mathematical operations on 1 and 3 is not allowed.)

(18/09/2024 SHIFT-2)

- A. 15 – 450
- B. 11 – 363
- C. 13 – 507
- D. 9 – 243

21. Three of the following numbers are alike in a certain way and one is different. Pick the odd one out. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(18/09/2024 SHIFT-3)

- A. 7 – 392
- B. 4 – 128
- C. 11 – 882
- D. 3 – 72

22. The same operation(s) are followed in all the given number pairs except one. Find that odd number pair. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(19/09/2024 SHIFT-1)

- A. 55 : 9
- B. 19 : 3
- C. 24 : 4
- D. 49 : 8

23. The second number in the given number-pairs is obtained by performing certain mathematical operation(s) on the first number. The same operation(s) is/are followed in all the number-pairs, except one. Find that odd number-pair. (NOTE: The relation should be found without breaking down the numbers into its constituent digits

(19/09/2024 SHIFT-2)

- A. 1764 : 1849
- B. 784 : 961
- C. 1521 : 1600

D. 1156 : 1225

24. Three of the following four options are alike in a certain way and thus form a group. Which is the one that does NOT belong to that group? (NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding/subtracting/multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(19/09/2024 SHIFT-3)

- A. 18 – 12 – 72
- B. 56 – 31 – 205
- C. 88 – 23 – 245
- D. 22 – 13 – 85

25. Three of the following numbers are alike in a certain way and one is different. Pick the odd one out. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(23/09/2024 SHIFT-1)

- A. 21 – 14 – 72
- B. 18 – 11 – 63
- C. 15 – 3 – 108
- D. 12 – 8 – 36

26. The same operation(s) are followed in all the given number pairs except one. Find that odd number pair. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(23/09/2024 SHIFT-2)

- A. 72 : 48
- B. 36 : 24
- C. 12 : 8
- D. 24 : 4

27. Three of the following number-pairs are alike in some manner and hence form a group. Which number-

SSC CGL 2024 TIER-1

(Number Classification)

pair does not belong to that group? (NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding/subtracting/multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(23/09/2024 SHIFT-3)

- A. 21 – 462
- B. 14 – 196
- C. 12 – 156
- D. 17 – 306

28. Three of the following four options are alike in a certain way and thus form a group. Which is the one that does NOT belong to that group? (NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding/subtracting/multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(24/09/2024 SHIFT-1)

- A. 89 – 212 – 34
- B. 58 – 139 – 23
- C. 12 – 122 – 99
- D. 23 – 84 – 38

29. The second number in the given number-pairs is obtained by performing certain mathematical operation(s) on the first number. The same operation(s) is/are followed in all the number-pairs, except one. Find that odd number-pair. (NOTE: The relation should be found without breaking down the numbers into its constituent digits)

(24/09/2024 SHIFT-2)

- A. 23 : 552
- B. 25 : 650
- C. 13 : 182
- D. 18 : 306

30. Three of the following numbers are alike in a certain way and one is different. Pick the odd one out. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then

performing mathematical operations on 1 and 3 is not allowed.)

(24/09/2024 SHIFT-3)

- A. 643
- B. 821
- C. 829
- D. 237

31. The same operation(s) are followed in all the given number pairs except one. Find that odd number pair. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(25/09/2024 SHIFT-1)

- A. 11 : 121
- B. 5 : 11
- C. 22 : 45
- D. 7 : 15

32. Three of the following four options are alike in a certain way and thus form a group. Which is the one that does NOT belong to that group? (NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding/subtracting/multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(25/09/2024 SHIFT-2)

- A. 36 – 88 – 80
- B. 34 – 56 – 62
- C. 68 – 54 – 94
- D. 23 – 56 – 51

33. The same operation(s) are followed in all the given number pairs except one. Find that odd number pair. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc., to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(25/09/2024 SHIFT-3)

- A. 12 : 152
- B. 13 : 169

SSC CGL 2024 TIER-1

संपूर्ण REASONING BATCH 5.0

- ✓ 360 degree reasoning coverage
- ✓ Detailed discussion of each and every concept
- ✓ All reasoning topics with logical and analytical reasoning
- ✓ Panacea for every exam
- ✓ Previous year questions included
- ✓ 100+ hrs live theory and concepts classes
- ✓ 81 + SSC tier 1 practice classes
- ✓ 50 + SSC tier 2 practice classes
- ✓ Free reasoning tier 1 and tier 2 (SSC) mocks available for Android ,pc,and ios
- ✓ Classes and pdf downloads available on web also
- ✓ One to one doubt solving on call or WhatsApp

(Number Classification)

Solutions for the Practice Sheet– Number Classification

Q1- Check the difference between the numbers.

A) $317-101=216$ B) $358-152=206$ C) $335-119=216$ D) $308-92=216$

Here Option B is odd one out. Hence it is the correct Answer

Q2- Logic:- $(\text{First Number}+1)*3 = \text{Second Number}$. This logic is applicable in all options except Option B. Hence Option B is the correct answer

Q3- Logic:- $(\text{First Number}*2)+(\text{First Number}\div 3) = \text{Second Number}$. This logic is applicable in all options except Option C. Hence Option C is the right answer.

Q4- Logic:- $(\text{First Number}\times \text{Second Number}) = \text{Third Number}$. This logic is not applicable in Option B. Hence Option B is the correct answer.

Q5- Logic:- $(\text{First Number})*(\text{First Number}-1) = \text{Second Number}$. This logic is not applicable in Option D. Hence Option D is the correct answer.

Q6- Logic:- $\text{First Number} = (\text{Difference of Second and Third Number})*3$. This logic is not applicable in Option A. Hence the correct answer is Option A.

Q7- Whenever such questions come where the first number is larger and the second number is smaller, Try to do the question by reversing the number and applying the logic. Here after reversing the numbers, the logic is $(\text{First Number}*8)-1 = \text{Second Number}$. It is applicable in all options except Option A. So the answer is Option A.

Q8- Logic:- $(\text{First Number}+ 60\% \text{ of First Number}) = \text{Second Number}$. This logic is not applicable in Option C. Hence Option C is the correct answer.

Q9- Again we can solve this question by reversing the numbers. Logic:- $(\text{First Number}*6)+2 = \text{Second Number}$. This logic is not applicable in Option B. Hence Option B is the correct answer.

Q10- Logic:- $\text{First Number} = (\text{Difference of Second and Third Number})*9$. This logic is not applicable in Option A. Hence Option A will be the correct answer.

Q11- Logic:- $(\text{Sum of First and Second Number})*11 = \text{Third Number}$. This logic is not applicable in Option A. Hence Option A will be the correct answer.

Q12- Logic:- $(\text{First Number}-2)^2 = \text{Second Number}$. This logic is not applicable in Option A. Hence Option A is the correct answer.

Q13- Logic:- $(\text{First Number}\times \text{Second Number})+5 = \text{Third Number}$. This logic is not applicable in Option D. Hence Option D is the correct answer.

Q14- Observe the options. Options seems to have pair of prime numbers.

A) 61,67,71 B) 83,89,97 C) 31,37,41 D) 73,79. In options A,B and C there is one prime number in between the given numbers while in Option D there is no prime number in between the numbers. Hence Option D is the correct answer.

Q15- Logic:- $\text{First Number} = (\text{Second Number})^2+(\text{Third Number})^3$. This logic is not applicable in Option C. Hence Option C is the correct answer.

Q16- Observe the options. In Option A, there are 2 even numbers and 1 odd number while in Options B,C and D, there is 1 even number and two odd numbers. Hence Option A is the correct answer.

Q17- Logic:- $(\text{First Number})+(\text{First Number}\div 5) = \text{Second Number}$. This logic is not applicable in Option D. Hence Option D is the correct answer.

Q18- Logic:- $(\text{Second Number}\times 3) = (\text{Sum of First and Third Number})$. This logic is not applicable in Option B. Hence Option B is the correct answer.

Q19- Logic:- $(\text{Multiplication of First and Second Number})-5 = \text{Third Number}$. This logic is not applicable in Option B. Hence Option B is the correct answer.

Q20- Logic:- $(\text{First Number})^2*3 = \text{Second Number}$. This logic is not applicable in Option A. Hence Option A is the correct answer.

Q21- Logic in this question is of complex mathematical operations:- A) Take First Number B) Multiply it by 2 C) Then square it D) Then again multiply it by 2.. This logic is not applicable in Option C. Hence Option C is the correct answer.

Q22- Solve this question by reversing the numbers. Logic:- $(\text{First Number}*6)+1 = \text{Second Number}$. This logic is not applicable in Option C. Hence Option C is the correct answer.

(Number Classification)

Q23- Observe these Numbers. These are perfect squares. Let's find their square roots and find a logic. In Option A, the numbers will be 42 and 43. In Option B, the numbers will be 28 and 31. In Option C, the numbers will be 39 and 40 and In Option D, the numbers will be 34 and 35. In all options except Option B, the difference between roots is 1. Hence Option B is the correct answer.

Q24- Logic:- $(\text{First Number} \times 2) + (\text{Second Number} \times 3) = \text{Third Number}$. This logic is not applicable in Option D. Hence Option D is the correct answer.

Q25- Logic:- $(\text{Difference of First and Second Number}) \times 9 = \text{Third Number}$. This logic is not applicable in Option A. Hence Option A is the correct answer.

Q26- Logic:- $(\text{First Number} \div 3) \times 2 = \text{Second Number}$. This logic is not applicable in Option D. Hence Option D is the correct answer.

Q27- Logic:- $(\text{First Number}) \times (\text{First Number} + 1) = \text{Second Number}$. This logic is not applicable in Option B. Hence Option B is the correct answer.

Q28- Logic:- $(\text{First Number} \times 2) = \text{Difference between Second Number and Third Number}$. This logic is not applicable in Option C. Hence Option C is the correct answer.

Q29- Logic:- $(\text{First Number}) \times (\text{First Number} + 1) = \text{Second Number}$. This logic is not applicable in Option D. Hence Option D is the correct answer.

Q30- The Logic in this question is of Prime Numbers and Composite Numbers. Except Option D i.e, 237 all other numbers are Prime Numbers i.e, 643, 821 and 829. Hence Option D is the correct answer.

Q31- Logic:- $(\text{First Number} \times 2) + 1 = \text{Second Number}$. This logic is not applicable in Option A. Hence Option A is the correct answer.

Q32- Logic:- $\text{Second Number} = (\text{Difference of First and Third Number}) \times 2$. This logic is not applicable in Option C. Hence Option C is the correct answer.

Q33- Logic:- $(\text{First Number} \times 13) = \text{Second Number}$. This logic is not applicable in Option A. Hence Option A is the correct answer.

Q34- See the difference between the numbers. In Option A, the difference is 39 and 38. In Option B, the

difference is 22 and 22. In Option C, the difference is 36 and 36 and In Option D, the difference is 9 and 9. So in all options except Option A, the difference between the numbers is same. Hence Option A will be the correct answer.

Q35- Logic in this question is of perfect squares in number system. After 13, 35, 23 in number series the perfect squares are 16, 36, 25 respectively but the same is not applicable in Case of Option B. Hence Option B will be the correct answer.

Q36- Logic:- $(\text{First Number} + 2)^2 = \text{Second Number}$. This is not applicable in Option B. Hence Option B is the correct answer.

5	D	12	A	19	B	26	D	33	A		
6	A	13	D	20	A	27	B	34	A		
7	A	14	D	21	C	28	C	35	B		

SSC TIER -2

REASONING PRACTICE BATCH

FOR SSC CGL/CHSL

2024

Course Validity : 1 Year

KEY FEATURES

- BRAND NEW REASONING PRACTICE BATCH FOR SSC EXAMS PATTERN FOR TIER -1 AND TIER -2
- BILINGUAL PDFS (HINDI AND ENGLISH) WITH PRINTABLE FORMAT
- SPECIAL CONFIDENCE BOOSTER SESSION ON LOGICAL REASONING TOPICS
- 80 HOUR LIVE CLASS FOR TIER -1 AND TIER -2
- FREE REASONING NEW PATTERN MOCK TEST
- 180+ HOUR RECORDED PRACTICE CLASSES AND PDFS
